

Media Policy

Helping Others Prioritize Education (“HOPE”) creates and maintains documents, publications, and media storage areas in which images, videos, text, and other media may be stored, used, or published internally. All members have the ability to upload and access photographs in HOPE media storage areas. These photos, as well as any original artwork or articles submitted by members, may be used in internal HOPE publications, such as the printed yearbook or a digital newsletter. All photos, illustrations, original creations, video or other media containing or created by members of HOPE will remain in any publication or storage area intended for use by HOPE members even if the members represented are no longer members of HOPE. External use of photos/media is not allowed without consent.

By signing below, I acknowledge that I am aware that HOPE and its members may use, post, edit, and publish photos, illustrations, original creations, video or other media containing or created by members of my family in any publication or storage area intended for use by HOPE members without seeking additional permissions or compensation.
